Applied Biocatalysis in Europe: A Sustainable Tool for Improving Life Quality

Message from the Guest Editors

Applied Biocatalysis and Biotransformation, that is, the use of enzymes and whole-cell systems in manufacturing processes for synthetic purposes, has been experiencing a clear boom in recent years, which has led to the start of the so-called “fourth wave”. In fact, the latest advances in bioinformatics, system biology, process intensification, and, in particular, enzyme-directed evolution (encouraged by the 2018 Nobel Prize awarded to F. Arnold) are widening the range of the efficacy of biocatalysts and accelerating the rate at which new enzymes are becoming available, even for activities not previously known. Moreover, xenobiology, the insertion of non-canonical amino acids into protein sequences, is creating fascinating new possibilities for the preparation of biocatalysts with improved properties. Traditionally, European scientists have been very actively involved in different aspects of Applied Biocatalysis. This Special Issue aims to gather contributions from European research groups, in the form of either original research articles or up-to-date reviews, to exemplify recent advances in this area.

Guest Editors

Prof. Dr. Andres R. Alcantara

Department of Chemistry in Pharmaceutical Sciences, Faculty of Pharmacy, Complutense University, Plaza De Ramon y Cajal, S/N University City, Madrid, Spain

Prof. Dr. Francisco Plou

Institute of Catalysis and Petrochemistry, CSIC, Marie Curie 2, 28049 Madrid, Spain

Deadline for manuscript submissions

closed (31 August 2020)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn
Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
