## **Special Issue**

# State-of-the-Art in Asymmetric Organocatalysis

## Message from the Guest Editor

You are cordially invited to contribute your papers to a Special Issue of *Catalysts* devoted to a broad and intensively developing area of asymmetric organocatalysis. Submissions of papers covering all aspects in this field are welcome—from purely synthetic results to mechanistic studies and computational investigations. If enough contributions are assembled in this Special Issue, it can be further published as a book. I hope all specialists in asymmetric organocatalysis will seriously consider submitting a paper for this Special Issue.
