# Selected Papers from Central European Conference ECOpole'22

## Message from the Guest Editors

We have the honour to invite you to take part in the 31st annual Central European Conference ECOpole'22, which will be held in 19-22 October 2022 in Poland. The Conference Programme includes oral presentations and posters and will be divided into four sections. More information can be found at https://ecesociety.com/. The present Special Issue will feature the works presented at ECOpole'22 that promote the linkage of catalysis, engineering, and technology, Authors with expertise in catalytical processes are cordially invited to submit their manuscripts to this Special Issue of Catalysts. We will be publishing articles covering various aspects of heterogeneous and homogeneous catalysis and other related areas such as electrochemistry, photochemistry, energy, fuels, environmental protection, green and sustainable chemistry, fine chemistry, surface chemistry and nanotechnology done by both experimental and theoretical approaches. The submission for the Special Issue of Catalysts will be open till 15 December 2022. Please consider submitting a high-quality manuscript for this Special Issue related to your presentation at the ECOpole'22.

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
