

Special Issue

Recent Advances in Supported Gold Nanocatalyst

Message from the Guest Editors

This Special Issue aims at reporting recent advances in the synthesis of novel supported gold nanocatalysts with high activity and stability for many catalytic and photocatalytic reactions. Moreover, potential applications, kinetics, reaction rates, reaction mechanisms, active sites, nature of support, gold-support interaction, preparation conditions, surface area, heat treatment, as well as the morphology of the catalyst and its effect on catalytic activity and stability, are valuable subjects for this Special Issue.

Guest Editors

Prof. Dr. Khaled Saoud

Department of Liberal Arts and Sciences, Virginia Commonwealth University, Doha, Qatar

Prof. Dr. Joydeep Dutta

Applied Physics Department, School of Engineering Sciences, KTH Royal Institute of Technology, Hannes Alfvéns väg 12, 11419 Stockholm, Sweden

Deadline for manuscript submissions

closed (28 February 2019)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
