

Special Issue

Organocatalysis in Ionic Liquids

Message from the Guest Editor

This Special Issue is dedicated to organocatalytic processes, which could be realized in ionic liquids medium. This Special Issue will contribute to the field by showing the role of such solvents (or co-solvents) in organocatalysis, especially concerning the selectivity, the enantioselectivity, and the possibility of recycling catalytic species. Special attention will be given to green processes or processes involving bio-sourced ionic liquids and/or substrates.

Guest Editor

Prof. Dr. Sandrine Bouquillon

Institute of Molecular Chemistry of Reims, UMR CNRS 7312, Université Reims Champagne, Ardenne, 51687 Reims, France

Deadline for manuscript submissions

closed (31 January 2018)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn

Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
