

Special Issue

Selected Papers from the 2nd Edition of Global Conference on Catalysis, Chemical Engineering and Technology (CAT 2018)

Message from the Guest Editors

The present Special Issue will feature the works presented at CAT 2018 that promote linkage of the catalytic science, engineering and technology. Authors with expertise in any topic of catalysis are cordially invited to submit their manuscripts to this Special Issue of *Catalysts*. Significant full papers and review articles are very welcome. The topics of the conference will cover various aspects of catalysis in all of its diversity, as well as other areas on the boundaries such as environmental protection, energy, sustainability, green chemistry, fine chemistry, biotransformation, surface chemistry and enzyme and microbial technology. Scientists are cordially invited to contribute original research papers or reviews in all aspects of catalysis, chemical engineering and technology to this special issue of *Catalysts*.
