## 10th Anniversary of Cells—Advances in Cells of the Nervous System

Guest Editor:

**Prof. Dr. Claire H. Mitchell**

Department of Basic &  
Translational Sciences, University  
of Pennsylvania, Philadelphia,  
PA, USA

Deadline for manuscript  
submissions:

**closed (10 February 2022)**

### Message from the Guest Editor

The year 2021 marks the 10th anniversary of the publication of *Cells*. We are delighted and proud to celebrate with a series of Special Issues and events. To date, the journal has published more than 4000 papers, and the journal website attracts more than 50,000 monthly page views. We would like to express our sincerest thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have made substantial contributions for years. Without your support, we would never have made it.

To mark this important milestone, a Special Issue entitled “10th Anniversary of *Cells*—Advances in Cells of the Nervous System” is being launched. This Special Issue will collect research articles and high-quality review papers in the research field of Cells of the Nervous System. We kindly encourage all research groups working in this area to make contributions to this Special Issue.

## Editors-in-Chief

### **Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

### **Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
