## Highlights of the 3rd Meeting of the French Society for Stem Cell Research (FSSCR)

Guest Editors:

**Dr. Pierre Savatier**

INSERM U1208, Stem Cell and Brain Research Institute, 18 avenue Doyen Lepine, 69500 Bron, France

**Dr. Cécile Martinat**

INSERM UEVE UMR 861, I-STEM, Association Française des Myopathies, 28 Rue Henri Desbruères, 91100 Corbeil Essonnes, France

**Dr. Thierry Jaffredo**

Institut de Biologie Paris Seine, CNRS UMR7622, INSERM U1156, Sorbonne Université, 9 Quai St Bernard, CEDEX 05, 75252 Paris, France

### Message from the Guest Editors

Dear Colleagues,

The 3rd annual meeting of the French Society for Stem Cell Research (FSSCR) will be held in Lyon on November 18 and 19, 2019. It will be organized around four sessions: “Gastruloids and Blastoids”, “Organoids”, “Stem Cells at the Single Cell Level”, and “Epigenetics and Aging”. All participants wishing to submit an Abstract at any of these four sessions, whether for a poster or a short presentation, have the opportunity to also submit an article for publication in this Special Issue of *Cells*. This article can be a review or an original manuscript.

Dr. Thierry Jaffredo

Dr. Pierre Savatier

Dr. Cécile Martinat

*Guest Editors*

Deadline for manuscript submissions:

**closed (29 February 2020)**

## Editors-in-Chief

**Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

**Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
