Eye Diseases: From Cellular and Molecular Mechanisms to Novel Therapeutic Approaches

Guest Editor:

Dr. Eri Kubo

Kanazawa Medical University,
Kahoku District, Ishikawa, Japan

Deadline for manuscript
submissions:

closed (1 June 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue, “Eye Diseases: From Cellular and Molecular Mechanisms to Novel Therapeutic Approaches”, will cover a selection of recent research topics and current review articles related to the ocular pathological molecular mechanisms and management of eye disease. It will include papers investigating experimental and clinical studies examining potential treatments or preventive measures to attenuate eye disease. Up-to-date review articles, commentaries, and experimental papers are all welcome.

We look forward to your contributions to this Special Issue.

Dr. Eri Kubo
Guest Editor

Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
