Deadline for manuscript
submissions:

closed (15 December 2020)

Message from the Guest Editor

Dear Colleagues,

For this Special Issue of *Cells*, we invite authors to submit contributions in the form of original research articles, reviews, or communications on all aspects related to the theme of “Gasotransmitter Signaling Mechanisms”. Relevant topics include, but are not limited to: cellular signal transduction and pathophysiological responses of nitric oxide (NO), carbon monoxide (CO), and hydrogen sulfide (H₂S).

Centre, The University of
Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
