# Recent Advances in Oncology Nanomedicine: Toward Novel Personalized Medicine Tools to Fight Human Cancer

Collection Editor:

## Dr. Sergio Comincini

Dipartimento di Biologia e Biotecnologie, Università di Pavia, Pavia, Italy

# Message from the Collection Editor

Dear Colleagues,

This Special Issue of *Cells* is dedicated to collecting multidisciplinary investigations covering cell biology and physiology, molecular biology, and biophysics expertise to provide innovative experimental preclinical proposals to the challenges of development of nanomedicines for cancer.

# **Keywords**

- Extracellular vesicle
- Nanoparticles
- Therapeutics
- Combination treatment
- Nanobiomaterials
- Translational oncology

an Open Access Journal by MDPI

# **Editors-in-Chief**

# Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE, Minneapolis, MN 55455, USA

#### Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen, Copenhagen, Denmark

# **Message from the Editorial Board**

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. Cells encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
