

Special Issue

Cellular Therapy of Leukemia

Message from the Guest Editor

Advances and development in immunotherapy methodology are significantly shifting the landscape of hematological malignant disease treatments. Allogeneic hematopoietic stem cell transplant, CAR-T therapy, and bispecific therapies demonstrate a track record of leukemia/lymphoma therapy methodology development towards more specific and effective treatment, with less toxicity and quality of life interference. Though we achieved a huge success in developing innovative methodologies for treating B cell-related leukemias/lymphomas, there is still an unmet need for myeloid lineage-related immunotherapy. This Special Issue will publish exciting research within this field and beyond.

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
