

## Special Issue

# Genomics and Novel Targeted Treatment of Soft-Tissue Sarcoma

### Message from the Guest Editor

Sarcomas are heterogeneous mesenchymal malignancies arising from bone, cartilage, or connective tissues such as muscle, fat, peripheral nerves, fibrous, or related tissues, and range from indolent to highly invasive and metastatic. From a molecular genetics perspective, few are currently targeted therapeutically. A better understanding of the underlying oncogenic processes and their regulatory mechanisms is essential to improve the patient outcomes of these devastating diseases. Furthermore, the emerging genomic and functional genetic approaches, coupled with novel therapeutic strategies, may have the potential to transform the care of patients with sarcoma.

### Guest Editor

Dr. Filomena De Nigris

Department of Precision Medicine, School of Medicine, University of Campania "Luigi Vanvitelli", 80138 Naples, Italy

### Deadline for manuscript submissions

closed (30 July 2023)

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
