

## Special Issue

# LncRNAs: Biofunctions, Cellular Targets, and Applications

### Message from the Guest Editors

This Special Issue, entitled “*LncRNAs: Biofunctions, Cellular Targets, and Applications*”, is focused on the elucidation of the biopathological functions of lncRNAs using any chemical, biochemical, biophysical, computational, experimental, or imaging technique in vitro, ex vivo, and in vivo systems; the study of lncRNA interactions with RNAs and proteins; and the current understanding of their potential clinical applications. Contributions on these topics are welcome, including original research articles and reviews.

---

### Guest Editors

Prof. Dr. Jian-Ying Wang

Department of Surgery, University of Maryland Baltimore School of Medicine, Baltimore, MD, USA

Dr. Xiao-Di Tan

Department of Pediatrics, University of Illinois College of Medicine at Chicago, Chicago, IL, USA

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
