Drug Effects on Neuroendocrine Regulation: New Development

Message from the Guest Editors

We are pleased to invite you to contribute original research papers or review articles to the Special Issue “Drug Effects on Neuroendocrine Regulation”. It is well known that whole-body homeostasis is finely modulated by the interplay of nervous and endocrine systems. In this context, studies have shown that neuroendocrine dysregulation could affect onset and progression of various diseases, such as cancer, neurological and psychiatric disorders, polycystic ovary syndrome, metabolic and cardiovascular diseases. The aim of this Special Issue is to further deepen current knowledge and new strategies for the prevention and treatment of neuroendocrine-related disorders.

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
