

## Special Issue

# Advances in Obesity-Linked Breast Cancer Research

### Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of the latest advancements in the field, encompassing a broad spectrum of topics ranging from molecular mechanisms to clinical implications. We warmly invite authors to submit original research articles, reviews, and prospective articles that shed light on important aspects of obesity-associated breast cancer, such as the epidemiology of obesity and breast cancer risk, molecular pathways in obesity leading to the initiation and progression of breast cancer, the impact of obesity on the breast tumor microenvironment and immune responses, and novel therapeutic strategies targeting obesity-associated pathways in breast cancer and treatment resistance.

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
