

Special Issue

Physiology of Telocytes

Message from the Guest Editors

We are considering, organizing, and proposing you this Special Issue on Physiology of Telocytes as a step forward in clarifying and attesting the roles of Telocytes, and bring evidence of their distinct physiology in relation with their peculiar microscopic morphology. Here, we are encouraging publishing new data on Telocytes that could help in elucidating their functionality into the living interstitium, or could help clarify their definitive roles either in lesion progression, or in tissue homeostasis. We are looking forward to receiving your manuscripts.

Keywords:

- telocytes
- telopodes
- physiology
- pathology
- tissue homeostasis

Guest Editors

Dr. Catalin G. Manole

1. Department of Cellular and Molecular Biology and Histology, "Carol Davila" University of Medicine and Pharmacy, 020021 Bucharest, Romania

2. Ultrastructural Pathology Laboratory, "Victor Babeș" National Institute of Pathology, 050096 Bucharest, Romania

Prof. Dr. Mihail E. Hinescu

1. Division of Cellular and Molecular Biology & Histology, 'Carol Davila' University of Medicine and Pharmacy, 050474 Bucharest, Romania

2. "Victor Babeș" National Institute of Pathology, 050096 Bucharest, Romania

Deadline for manuscript submissions

20 December 2025

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
