

Special Issue

Cell Research for BNCT

Message from the Guest Editors

From July 11 to 13, 2022, the 11th YBNCT Meeting will be organized as a hybrid event by our colleagues at the Budker Institute in Novosibirsk. The journal *Cells* has decided to publish a Special Issue for the occasion, with the stated goal of giving young scientists the opportunity to publish their research results in a high-ranking peer-reviewed journal. The publisher MDPI has further proposed that this Special Issue be included in the Special Issue Mentor Program. This program provides an opportunity for early career scientists (new faculty, postdoc graduate students, etc.) to enhance their editing, networking, and organizational skills, and to work closely with the journal to gain more editorial experience. Aleksandr Makarov and Iuliia Taskaeva will edit this Special Issue as guest editors with Prof. Sauerwein as a mentor. The Special Issue is entitled "Cell Research for BNCT". We invite your contributions, in the form of original research articles, reviews, or shorter perspective articles, on all cellular aspects related to the theme of BNCT.

Guest Editors

Prof. Dr. Wolfgang Sauerwein

Dr. Aleksandr Makarov

Dr. Iuliia Taskaeva

Deadline for manuscript submissions

closed (30 September 2022)

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
