

Topical Collection

Feature Papers in 'Cell Proliferation and Division'

Message from the Collection Editor

The present Topical Collection entitled “Feature Papers in Cell Proliferation and Division” collates high-quality research articles, communications, and review articles addressing and investigating the cutting-edge fields of cell proliferation and division. The Topical Collection aims to illustrate, through the choice of the selected works, the frontier research in cell proliferation and division, and we therefore invite the Editorial Board Members of *Cells* or relevant experts and colleagues to contribute papers reflecting the latest progress in their particular field of research. The topics of interest include, but are not limited to, the following:

- Cell proliferation;
- Cell division;
- Cell cycle;
- Cell reproduction;
- Cell growth;
- Stem cells;
- Cancer;
- Chromosoma;
- Mitosis;
- Meiosis;
- Cyclin;
- Cohesins;
- Centromeres;
- Kinetochore;
- Cytokinesis.

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
