Lysophosphatidic Acid and Chronic Pain

Message from the Guest Editor

Lysophosphatidic acid (LPA) is one of most important chemical mediators. The studies cover structural, molecular, cellular, biological, and pathophysiological research fields. Among the pathophysiological or neurobiological fields, chronic pain raises concerns among many basic and clinical researchers. The Special Issue in the journal *Cells* (IF=7.66) calls for original and review articles on LPA and chronic pain (as well as acute/inflammatory pain) to elucidate LPA neurobiology and pathophysiological involvement in refractory pain.

Guest Editor

Prof. Dr. Hiroshi Ueda

Graduate Institute of Pharmacology, National Defense Medical University, Taipei, Taiwan

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
