Immunotherapy: A New Challenge in Treating Cancer

Message from the Guest Editor

Immunotherapy, and specifically checkpoint inhibitors, have a remarkably impressive, positive impact on clinical outcomes in an ever-increasing number of clinical settings. Immunotherapy advances can be applied to several immune-mediated pathologies, and the success achieved with some types of immunotherapies in recent years is revealing new ways to explore and manipulate the immune system to our benefit. This Special Issue welcomes original research papers or comprehensive reviews addressing every aspect of this topic, including function and regulation in biology and medicine. Our aim is for interdisciplinary applications of the knowledge to stimulate future research.

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
