Inflammation in Cardiovascular Diseases in the COVID-19 Era

Message from the Guest Editor

During COVID-19 pandemic, cardiovascular diseases were investigated, diagnosed and treated in a different way than before. In particular, it has been observed that cardiovascular diseases were somehow delayed with potential detrimental burden for patients and health care system. Therefore, cardiovascular diseases that the most important cause of death might impact on patients in the next months and years. This issue will accept both research article and reviews focused on all potential relationship between COVID-19 and chronic and acute Cardiovascular Diseases. Starting from pathophysiology to cardiovascular primary and secondary prevention till Hospital reorganization strategies and new managements of patients.

Guest Editor

Prof. Dr. Fabrizio Montecucco

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
