

Special Issue

Skin Research: Cellular Mechanism and Therapeutic Potentials

Message from the Guest Editor

Skin research has extremely varied aspects, as the skin is a complex organ and in close connection with other systems, such as immunity, the nervous system, or the vascular network. In the skin itself, the study of healthy skin can concern these interactions, as well as the different components of the epidermis, dermis, or hypodermis. As for dermatology, it is probably the medical specialty with the greatest number of diseases. This Special Issue edition is open to all aspects of skin research, from basic and translational to clinical and therapeutic research.

Guest Editor

Prof. Dr. Laurent Misery

1. Department of Dermatology, University Hospital of Brest, 29200 Brest, France
2. Laboratory of Neurosciences, University of Western Brittany, 29238 Brest, France

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
