

Special Issue

Super-Resolution Microscopy in Cells

Message from the Guest Editors

Special Issue "Super-Resolution Microscopy in Cells" of the Journal *"Cells"* (Impact Factor 6.600). The Special Issue will focus on novel development and application of microscopy methods (both optical and computational) that enable super-resolution imaging at single-cell level. Novel unconventional microscopies or artificial intelligence based approaches to outperform existing super-resolution methods are also within the scope of the Special Issue. Papers may also focus on addressing step forward biological questions by advanced single-cell imaging and analysis. Moreover, review articles can cover recent advances in the fields of super-resolution microscopy, computational microscopy, or novel and emerging techniques for sub-diffraction imaging.

Guest Editors

Dr. Pietro Ferraro

Prof. Dr. Demetri Psaltis

Prof. Dr. Zeev Zalevsky

Dr. Pasquale Memmolo

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
