Traveling Metalloproteinases

Message from the Guest Editor

The matrix metalloproteinases (MMP) family were originally found as extracellular proteolytic enzymes which are crucial in diseases, tissue development, angiogenesis, and wound healing. The discovery of intranuclear MMP has been paradigm-shifting in biology and medicine. Moreover, intranuclear MMP alters gene expression at the transcriptional level. Further, recent studies have discovered MMP which is carried by extracellular vesicles such as exosomes, altering the local and distant microenvironment. Therefore, researchers in the field of the intracellular roles of MMP and vesicle-associated MMP are encouraged to submit original articles and reviews to the journal *Cells* Special Issue on “Traveling Metalloproteinases”.

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
