

## Special Issue

# Normal and Deregulated Coordination of the Kidney Gonadal Axis by the Wnts

### Message from the Guest Editors

In this Special Issue of *Cells*, we invite contributions in the form of original research articles, reviews, or shorter perspective articles on all aspects related to the theme of “Wnt signaling in kidney and sex organ diseases”.

Articles with mechanistic and functional insights from an organ and disease or a molecular biological perspective are especially welcome. Relevant topics include, but are not limited to:

- Wnt signaling and kidney development
- Wnt and kidney diseases
- Wnt signaling and reproductive organ development
- Wnt and reproductive organ diseases
- Wnt signaling and environmental impact
- Wnt and cancer
- Therapeutic implication in Wnt-associated diseases

### Keywords

- kidney injury
- urogenital system
- Wnt signaling
- extracellular vesicles (EVs)
- cancer
- treatments
- reproductive organs

### Guest Editors

Prof. Dr. Seppo Vainio

Biocenter Oulu, Laboratory of Developmental Biology, Faculty of Biochemistry and Molecular Medicine, Borealis Biobank of Northern Finland, InfoTech, University of Oulu, Oulu, Finland

Prof. Dr. Florence Naillat

Biocenter Oulu, Laboratory of Developmental Biology, Faculty of Biochemistry and Molecular Medicine, University of Oulu, Oulu, Finland

### Deadline for manuscript submissions

closed (31 March 2020)

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
