

Special Issue

Angiopoietin Signaling

Message from the Guest Editor

This Special Issue offers an open access forum that aims to bring together a collection of original research and review articles addressing the expanding fields of angiopoietin biology and signaling. We hope to provide an important resource for understanding the molecular mechanisms involved in angiopoietin biology and for the exploration of therapeutic potentials of angiopoietins in various diseases. Suggested potential topics may be: regulation of inflammatory processes by angiopoietins; epigenetic mechanisms of angiopoietin signaling; angiopoietins and cancer angiogenesis; extracellular microvesicles and angiopoietin biology; therapeutic potentials of angiopoietins; vascular and extravascular biological functions of angiopoietin-2; and regulation of cell metabolism by angiopoietins.

Guest Editor

Prof. Dr. Sabah Hussain

Department of Medicine, Division of Experimental Medicine, McGill University Health Centre, Montreal, QC, Canada

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
