

Special Issue

Highlights in Autophagy: From Basic Mechanisms to Human Disorder Treatments

Message from the Guest Editors

This Special Issue will consist of selected papers from the 2020 Proteasome & Autophagy Congress, 22–24 April 2020, Clermont-Ferrand, France. The Proteasome & Autophagy Congress is an international scientific event held every 2 years and taking place in Clermont-Ferrand, France. The goal of this congress is to cover up-to-date knowledge on Ubiquitin Proteasome System (UPS) and Autophagy and their implication in different diseases. This Special Issue offers the opportunity for meeting attendees to contribute and publish research findings, and reviews in this area. We invite submissions that provide insight into molecular and cellular mechanisms that regulate autophagy and the crosstalk with UPS to ensure proteostasis. We also welcome submissions that provide insight into the role these processes play in pathophysiological conditions and aging.

Guest Editors

Dr. Lydie Combaret

INRA, University of Clermont - Auvergne, Department of Human Nutrition, St Genès Champanelle, France

Dr. Pei-Hui Lin

Department of Internal Medicine, Wexner Medical Center, The Ohio State University, Columbus, OH 43210, USA

Deadline for manuscript submissions

closed (15 March 2021)

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
