

Special Issue

10th Anniversary of Cells— Advances in Cell Techniques

Message from the Guest Editor

This Special Issue will collect research articles and high-quality review papers in the cell techniques research fields. We kindly encourage all research groups working in cell and tissue culture, the isolation and fractionation of cells, immunocytochemistry (ICC), in situ hybridization (ISH), transfection, optogenetics and other cell techniques areas to make contributions to this Special Issue.

This scientific journal is the collaborative achievement of many scientists from all over the world, and we would like to thank all our authors and reviewers who have contributed to this Special Issue. In recognition of our authors' continued support, *Cells* is pleased to announce that the *Cells* Best Paper Awards for Anniversary Special Issues will be launched and granted to the best papers published in the Anniversary Special Issues. About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
