

## Special Issue

# 10th Anniversary of Cells— Advances in Cellular and Organismal Aging

### Message from the Guest Editors

The year 2021 marks the 10th anniversary since the inaugural issue of *Cells* was published. To mark this important milestone in the topic section “Cellular Aging”, a Special Issue entitled “10th Anniversary of Cells—Advances in Cellular and Organismal Aging” is being launched.

This Special Issue invites research articles and high-quality review papers focusing on molecular mechanisms and pathways inherently connected with cellular and organismal aging. We kindly encourage researchers working on aging and related areas including, but not limited to, stem cell biology, senescence, epigenetics, genome stability, protein quality control, metabolism, regeneration, and aging clocks to make contributions to this Special Issue.

We would like to thank all our authors and reviewers who have contributed to this Special Issue. In recognition of our authors' continued support, *Cells* is pleased to announce that the *Cells* Best Paper Awards for Anniversary Special Issues will be launched and granted to the best papers published in the Anniversary Special Issues. See the details:

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
