

## Special Issue

# Molecular Mechanisms in Organ Fibrosis

### Message from the Guest Editors

Dear colleagues, The aim of this Special Issue of *Cells* is to report new findings that advance knowledge of the molecular mechanisms of organ fibrosis. We welcome submissions of research papers and reviews that focus on aspects of known mechanisms/pathways such as epithelial–mesenchymal transition, TGF- $\beta$  signaling, myofibroblast activation, proliferation, and senescence, but also manuscripts exploring new aspects.

#### - Keywords

- organ fibrosis
- epithelial–mesenchymal transition
- TGF- $\beta$  signaling
- myofibroblast activation
- proliferation
- senescence

---

### Guest Editors

Dr. Maurizio Onisto

Department of Biomedical Sciences, University of Padova, 35100 Padua, Italy

Dr. Valentina Masola

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
