

## Special Issue

# State-of-Art in Neuromuscular Diseases

### Message from the Guest Editor

This special issue of “Neuromuscular Disorders” is aimed at a wide range of clinicians, pathologists, geneticists, and clinical and basic scientists with an interest in the study of neuromuscular disorders. The editorial team welcome high-quality original research articles, review articles, and communications (including opinion and hypothesis papers) covering all aspects of neuromuscular disorders in childhood and adult life, with a focus on advances in the fields of molecular biology and genetics, translational research, drug development, clinical trials, and improvement of clinical trial outcome measures and biomarkers in a wide variety of neuromuscular disorders, which include, without being limited to:

- Motor neuron diseases
- Amyotrophic lateral sclerosis – frontotemporal dementia spectrum
- Spinal muscular atrophies
- Hereditary or acquired neuropathies
- Muscular dystrophies
- Congenital myopathies
- Myotonic syndromes
- Metabolic myopathies
- Inflammatory myopathies
- Myasthenia gravis and other neuromuscular junction disorders

---

### Guest Editor

Dr. Mehdi Ghasemi

Department of Neurology, University of Massachusetts School of Medicine, Worcester, MA 01655, USA

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
