

Special Issue

Oral Stem Cells in Tissue Engineering and Regenerative Medicine

Message from the Guest Editors

This Special Issue welcomes top-quality articles and impacting rereviews on these and related topics. Clinical and translational aspects and/or applications of in vitro or ex vivo studies will receive priority: salami-slicing papers, case-reports/case-series, opinions and hypotheses are discouraged and will be not considered for peer-review. Narrative reviews are typically “invited”: Authors are discouraged from submitting spontaneously narrative reviews unless they are well written and on a topic of interest within the scientific community. The submissions should mainly be addressed on the following topics:

- Oral stem cells
- Tissue engineering
- Regenerative medicine
- Smart materials (only with clinical applications)
- Nanotechnologies
- Molecular biology
- Additive manufacturing and tissue regeneration

Guest Editors

Prof. Dr. Marco Tatullo

Full Professor, Department of Translational Biomedicine and Neuroscience (DiBraiN), University of Bari “Aldo Moro”, 70121 Bari, Italy

Prof. Dr. Maria Giovanna Gandolfi

Department of Biomedical and Neuromotor Sciences, University of Bologna, 40125 Bologna, Italy

Deadline for manuscript submissions

closed (15 October 2021)

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
