

Special Issue

Stem Cells, Metabolism and Neurodegenerative Diseases

Message from the Guest Editors

Dear Colleague, In this issue, a special focus will be given to stem cell therapeutics and how metabolic alterations or dysfunction could impact not only its therapeutical effect, but also the molecular, cellular, and system-level of neurodegenerative diseases.

- stem cells
- neurodegenerative diseases
- metabolism dysfunction
- disease modeling
- precision medicine
- (neuro)inflammation

We are pleased to report that the 2021 Impact Factor for Cells has increased to 7.666. The journal's 5-Year Impact Factor is 7.677. To celebrate it and acknowledge the great support of scholars in the research field, the 10 manuscripts accepted first will enjoy a full waiver on the Article Processing Charge (APC).

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
