

Special Issue

Ceramics in the Circular Economy for a Sustainable World

Message from the Guest Editors

This Special Issue focuses on several areas related to ceramics, glasses and composites, including but not limited to the following: industrial materials, construction and finishing materials, natural materials, waste management, recycling and reuse, the optimization of resources and raw materials, life cycle assessment, greenhouse gas emissions reduction, renewable energy sources, testing and characterization and regulatory aspects. This Special Issue aims to build a platform for discussion among various stakeholders involved in the ceramics community and sustainable growth, including researchers from academia, industry and government. This valuable exchange of ideas, methods and results will be key in adjusting to the needs of a world which has infinite desires but finite resources.

Guest Editors

Dr. Francesco Baino

Dr. Pardeep Gianchandani

Dr. Enrico Fabrizio

Dr. Bartolomeo Megna

Dr. Manuela Ceraulo

About the Journal

Message from the Editor-in-Chief

Ceramics (ISSN 2571-6131), an international, open access journal, provides an advanced forum for ceramics science and engineering. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We are committed to drive *Ceramics* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts. Your contribution should lead to the development of technical ceramics with better performances and to improve our quality of life.

Editor-in-Chief

Prof. Dr. Gilbert Fantozzi

INSA-Lyon, MATEIS Laboratory UMR CNRS 5510, 69621 Villeurbanne,
France

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Ceramics) / CiteScore - Q2
(Materials Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2025).
