

Special Issue

Thermoelectric Properties of Ceramic-Based Materials

Message from the Guest Editor

This Special Issue will present the most recent developments in the field of ceramic-based thermoelectric materials. Studies on thermoelectric-related properties, including the electronic and thermal transport properties of ceramic-based materials, are welcome, including original articles, communications, and reviews.

Keywords:

- thermoelectric materials
- electronic transport properties
- thermal transport properties
- oxides
- chalcogenides

Guest Editor

Dr. Sang-Il Kim

Department of Materials Science and Engineering, University of Seoul,
Seoul 02504, Republic of Korea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Ceramics (ISSN 2571-6131), an international, open access journal, provides an advanced forum for ceramics science and engineering. Research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We are committed to drive *Ceramics* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts. Your contribution should lead to the development of technical ceramics with better performances and to improve our quality of life.

Editor-in-Chief

Prof. Dr. Gilbert Fantozzi

INSA-Lyon, MATEIS Laboratory UMR CNRS 5510, 69621 Villeurbanne,
France

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Ceramics) / CiteScore - Q2
(Materials Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2025).
