Special Issue

Project Earthrise: For the World We Want to Live In (including Manuscripts from the 2020 inVIVO Planetary Health Annual Conference)

Message from the Guest Editors

We are organizing a Special Issue in Challenges for the publication of the Proceedings of the 2020 inVIVO Planetary Health Annual Conference. This virtual meeting will be held on 1–11 December 2020.

We also welcome outside submissions that focus on understanding and improving the complex relationships between human health and planetary health.

You are invited to submit papers presented at the 9th Annual Conference of inVIVO Planetary Health (https://www.invivoplanet.com/2020-meeting.html), for publication in Challenges. Participants of this conference, and inVIVO members, will receive a 100% discount on the Article Processing Charges.

We welcome manuscripts that discuss any aspects of personal, environmental, economic and societal health, encouraging diverse perspectives from across many dimensions of the arts and the sciences, as we explore novel solutions and new normative values.

Guest Editors

Prof. Dr. Susan Prescott

Dr. Ganesa R. Wegienka

Dr. Nicole Redvers

Mr. Jake Robinson

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Planetary health provides an overarching vision of the interdependence of all life on Earth, offering a cohesive framework that connects scientific, social, and cultural understanding to guide our responses to the complex challenges of our time. *Challenges—Journal of Planetary Health* is dedicated to exploring these interconnections through transdisciplinary efforts spanning technological innovation, education, policy, and governance, as well as the human attitudes, values, and spirituality that shape social and ecological well-being and justice. We welcome a wide range of contributions from diverse fields, from the biological, physical, and technical sciences to the social sciences, arts, and humanities, that illuminate pathways toward the mutual flourishing of people, places, and the planet.

Editor-in-Chief

Prof. Dr. Susan Prescott
