Special Issue

Chemistry Research in Romania

Message from the Guest Editors

The Special Issue on "Chemistry in Romanian Research" publishes reviews/perspectives on all fields of analytical, organic, macromolecular, inorganic and physical chemistry, chemical engineering, and material sciences. Additionally, the Special Issue will include research articles on hot topics on new methods of synthesis, new methods of analysis, bio-organic chemistry, organometallic chemistry (metal organic chemistry), heteroatom chemistry, selective and asymmetric syntheses, optical resolution, heterocyclic chemistry, macromolecular chemistry, macrocycles including crown ethers and calixarenes, natural product chemistry, and catalytic and green chemistry. Theoretical aspects including mechanisms are also within the scope of this Special Issue.

Guest Editors

Prof. Dr. Raluca-Ioana Stefan-van Staden

Laboratory of Electrochemistry and PATLAB, National Institute of Research for Electrochemistry and Condensed Matter, Bucharest, 300569 Timişoara, Romania

Dr. Marcela Mihai

"Petru Poni" Institute of Macromolecular Chemistry, 700487 Iasi, Romania

Deadline for manuscript submissions

Message from the Editor-in-Chief

Chemistry is a broad science and in *Chemistry* we hope to showcase the excellence of this fundamental discipline. Open Access publishing allows scientists to publish their research in a way that reaches the widest possible audience. In Chemistry we aspire to build a genuinely transdisciplinary culture in which communication of results between scientists active in different areas and between scientists and the broader public highlights the benefits that chemistry can bring to society. We encourage papers on all aspects of chemistry ranging from astrochemistry to zoochemistry, with everything in between. We also very strongly welcome inter- and multidisciplinary papers which expand the subject beyond its present horizons. We also welcome themed issues collecting reviews and state-of-the-art papers in topical areas of chemical science.

Editor-in-Chief

Prof. Dr. Igor Alabugin
Department of Chemistry and Biochemistry, Florida State University,
Tallahassee, FL 32306, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Reliable service:

rigorous peer review and professional production.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
