

Special Issue

Feature Paper from Top Italian Scientist

Message from the Guest Editor

This Special Issue is dedicated to recent advances in all areas of chemistry and comprises a selection of exclusive feature papers authored by colleagues included in the 'Top Italian Scientist Chemistry' list: [Top Italian Scientists Chemistry](#). Both original research articles and comprehensive review papers are welcome. The papers will be published free of charge, with full open access after peer review.

About the Journal

Message from the Editor-in-Chief

Chemistry is a broad science and in *Chemistry* we hope to showcase the excellence of this fundamental discipline. Open Access publishing allows scientists to publish their research in a way that reaches the widest possible audience. In *Chemistry* we aspire to build a genuinely transdisciplinary culture in which communication of results between scientists active in different areas and between scientists and the broader public highlights the benefits that chemistry can bring to society. We encourage papers on all aspects of chemistry ranging from astrochemistry to zoochemistry, with everything in between. We also very strongly welcome inter- and multidisciplinary papers which expand the subject beyond its present horizons. We also welcome themed issues collecting reviews and state-of-the-art papers in topical areas of chemical science.
