

Dear Colleagues,

As Editor-in-Chief of *Chemosensors*, I am pleased to announce the two winners of the Travel Awards 2017 sponsored by *Chemosensors*. Travel Awards were granted to **Dr. Xiangcheng Sun**, Postdoctoral Research Fellow at Cornell University, and **Dr. Kiran Kumar Tadi**, Postdoctoral Research Fellow at Hebrew University of Jerusalem. The awards consist of 800 Swiss Francs each to attend any academic conference during 2017.

Dr. Xiangcheng Sun's research involves single molecule visualization of living polymerization catalysis, fluorescent carbon dots through single molecule methods, and small fluorescent organic molecules synthesis and their polymerization. He will attend the 2017 Materials Research Society (MRS) Fall Meeting and Exhibit Annual Meeting, 26 November–1 December 2017, in Boston, MA, USA. **Dr. Kiran Kumar Tadi's** work focuses on peptide-based sensors, and surface-assembled monolayers. He will present his new findings at the prestigious international conference, Bio-Security and Bio-Sensors Summit 2017, which will be held at Coronado Island, California, USA, 2 October 2017–4 October 2017.

Dr. Igor Medintz
Editor-in-Chief

2017 TRAVEL AWARDS WINNERS

Chemosensors (ISSN 2227-9040; CODEN: CHEMA9) is an international, scientific, open access journal on the science and technology of chemical sensors published quarterly online by MDPI. It is indexed by Emerging Sources Citation Index (ESCI - Web of Science). For more information on *Chemosensors* please visit our website: <http://www.mdpi.com/journal/chemosensors>
