

Innovative Materials, Technologies, and Sensors

Guest Editors:

Prof. Dr. Arcady Zhukov

Prof. Dr. Tatiana Perova

Prof. Dr. Valentina Zhukova

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

Dear Colleagues,

Progress in technology and engineering is greatly affected by the development of advanced functional materials with improved properties. However, the insecure supplies of critical materials (i.e., rare-earth or Co) could hinder the development of new technologies related to massive applications. Accordingly, the development of novel technologies and applications is critically affected by the development of new cost-effective materials and by the improvement of the physical properties of existing materials.

The overall goal of this Special Issue is to provide the most up-to-date information about recent developments of cost-effective and innovative materials with advanced functional properties, made suitable for technological applications. Both reviews and original research papers will be considered. Reviews should provide an up-to-date, well-balanced overview of the current state of the art of a particular application and include main results from different groups.

Message from the Editor-in-Chief

Chemosensors is an international, scientific, open access journal on the science and technology of chemical sensors published by MDPI. All articles are released on the internet immediately following acceptance. The journal publishes reviews, regular research papers, and communications. The scope of Chemosensors includes:

New chemical sensors design

Electrochemical devices, potentiometric sensor, redox electrode

Optical chemical sensors

Analytical methods

Environmental monitoring

Gas detectors

electronic nose, etc.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Instruments & Instrumentation*) / CiteScore - Q2 (*Analytical Chemistry*)
