10th Anniversary of *Chemosensors*—Section 'Materials for Chemical Sensing'

Message from the Guest Editors

The year 2023 marks the 10th anniversary of the journal *Chemosensors* (ISSN 2227-9040). To mark this significant milestone, a Special Issue entitled “10th Anniversary of *Chemosensors*—Section “Materials for Chemical Sensing”” is being launched. The Special Issue covers wide hot topics related to sensing materials. We would like to invite you to contribute an original research paper or a comprehensive review article on a trending or hot topic for peer review and possible publication. Topics include but are not limited to:

- Inorganic, organic, and hybrid nanomaterials for chemical sensing
- Two-dimensional materials for chemical sensing
- Metal-organic frameworks for chemical sensing
- Supramolecular systems for chemical sensing
- Smart soft materials for chemical sensing
- Molecularly imprinted polymers
- DNA-based sensors
- Thin-film-device-based sensors
- Nanomaterials for gas sensing
- Microfluidic sensors
- Porous materials for chemical sensing

About the Journal

Message from the Editorial Board

Chemosensors continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

Editors-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Engineering Village and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Physical and Theoretical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
