

## Special Issue

# 10th Anniversary of *Chemosensors*—Recent Advances in Chemical Sensing Based on Nanomaterials

### Message from the Guest Editor

We are celebrating the 10th anniversary of *Chemosensors* with a Special Issue in the Section “Nanostructures for Chemical Sensing” (IF: 4.229, ISSN 2227-9040) in 2022. We would like to take this opportunity to thank our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have joined their efforts for years. These highlights would not have been possible without your participation. To highlight this anniversary, we are leading a Special Issue that will cover various topics related to Nanostructures for Chemical Sensing. The growing advance of nanostructured materials in sensing has increasingly pointed to promising sensors with several applications, spanning the environmental, food, pharmaceutical and clinical analysis fields. The Special Issue covers a wide range of hot topics related to chemosensors. We invite you to contribute an original research paper or a comprehensive review article on a trendy or hot topic for peer-review and possible publication.

### Guest Editor

Prof. Dr. Elisabetta Comini  
Sensor Lab, Department of Information Engineering, University of  
Brescia and CNR INO, Via Valotti 9, 25133 Brescia, Italy

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editorial Board

*Chemosensors* continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

---

### Editors-in-Chief

Prof. Dr. Jin-Ming Lin

Beijing Key Laboratory of Microanalytical Methods and Instrumentation,  
Department of Chemistry, Tsinghua University, Beijing 100084, China

Prof. Dr. Nicole Jaffrezic-Renault

Institute of UTINAM, University of Franche-Comté, UMR-CNRS 6213, 16  
Gray Road, 25030 Besançon, France

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, Engineering Village and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Physical and Theoretical Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.8 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2026).
