

Special Issue

Advances in Chemical Imaging and its Applications

Message from the Guest Editor

The inherent information associated with chemical imaging as well as recent technological advances that have improved both the spatial and temporal resolution of such analyses have resulted in the rapid and growing exploitation of chemical imaging for many different applications, including: food safety, space monitoring, biomedical diagnostics, forensic analysis, pharmaceutical monitoring, cellular analyses, defense and many more. This Special Issue on “Advances in Chemical Imaging and its Applications” will provide an overview and critical assessment of the latest developments and advances in chemical imaging technologies (spectroscopic, electrochemical and mass spectrometric) and their application to various disciplines ranging from space monitoring to super-resolution chemical imaging of cellular/sub-cellular environments.

Guest Editor

Prof. Dr. Brian Cullum

Department of Chemistry, University of Maryland, Baltimore County,
1000 Hilltop Circle, Baltimore, MD 21250, USA

About the Journal

Message from the Editorial Board

Chemosensors continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

Editors-in-Chief

Prof. Dr. Jin-Ming Lin

Beijing Key Laboratory of Microanalytical Methods and Instrumentation,
Department of Chemistry, Tsinghua University, Beijing 100084, China

Prof. Dr. Nicole Jaffrezic-Renault

Institute of UTINAM, University of Franche-Comté, UMR-CNRS 6213, 16
Gray Road, 25030 Besançon, France

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Engineering Village and other
databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore -
Q1 (Physical and Theoretical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 20.5 days after
submission; acceptance to publication is undertaken in 2.8
days (median values for papers published in this journal in
the first half of 2025).
