# Aptasensors: Applications in Life Science and Environmental Technology

### Message from the Guest Editor

This Special Edition is intended to provide an overview of current topics and the latest lines of development in the rapidly growing research area of aptasensors. The focus is on applications in the field of healthcare and environmental and food analysis, as well as studies on increasing stability and sensitivity. We would like to invite you to participate by submitting results of your research using aptamer-based biosensors. In addition to a wide variety of applications, the focus is also on new (multisensor) platforms and fast analyses. We welcome both original articles and review articles that cover the state-of-the-art in this rapidly developing area.
