Message from the Guest Editors

Dear Colleagues,

Childhood mental health is a critical issue that has garnered global research attention. Currently, children and young people face significant challenges in their mental health, with profound effects on their well-being and development. Understanding these issues and their impact on children and the youth population is crucial to effectively addressing mental health needs. This monograph addresses the importance and urgency of researching these topics, highlighting how attention to childhood mental health has become an internationally recognized issue. We will explore current challenges and strategies with which to improve the mental health of children and young people in a global context.
