Message from the Guest Editors

Dear Colleagues,

Early life mental health issues do not just produce disabilities at individual level but determine maladaptive reactions in the family environment, social or community disruptions, low academic productivity, and increased healthcare costs.

More than half of all mental health disorders develop before the age of 18, and in this context, we kindly welcome you to disseminate new scientific information and updates related to new concepts and psychiatric approaches in order to create better outcomes for children and adolescents struggling with mental health disorders.

The aim of this Special Issue in *Children* is to highlight recent advances, innovative views on diagnosis, therapeutic approaches, and novel standards regarding neurodevelopmental disorders, conduct disorders, psychotic disorders, addictive disorders, and depressive/anxiety disorders diagnosed in children or adolescents. We also encourage submissions that explore the influence of psychiatric diagnosis on family or siblings' functionality. On behalf of the Editorial Office, we invite you to submit research papers, review articles, and interesting case reports for peer review and possible publication.

children

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
