## Diagnosis and Treatment of Eating Disorders in Children and Adolescents

Guest Editors:

**Prof. Dr. Orjena Žaja**

Pediatric Department, Sestre Milosrdnice University Hospital Center, University of Zagreb, Zagreb, Croatia

**Dr. Ivan Begovac**

Department of Psychiatry and Psychological Medicine, School of Medicine, Clinical Hospital Center Zagreb, University of Zagreb, Zagreb, Croatia

Deadline for manuscript submissions:

**closed (15 February 2025)**

### Message from the Guest Editors

Eating disorders are among the most prevalent, disabling, and potentially fatal mental disorders of unknown aetiology that can go undetected for years. Diagnostic systems recognise six main types of eating disorders: anorexia nervosa, bulimia nervosa, binge eating disorder, avoidant restrictive food intake disorder, pica, and rumination disorder.

Disturbed eating attitude is a key factor in the origin and disease sustenance that can result in medical complications of numerous organs. Due to physiological characteristics of growth and development, complications in children and adolescents can be serious, even irreversible if recognized late.

This Special Issue therefore aims to increase the knowledge of these complex disorders by inviting researchers and experts in this field—physicians, paediatricians, psychiatrists, psychologists, epidemiologists, nutritionists, kinesiologists and sports coaches—who work in close association with children and adolescents. Special focus will be laid on diagnostic approaches, and the design of practice and treatment modalities for patients/families.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
