Deadline for manuscript
submissions:
closed (5 October 2024)

Message from the Guest Editor

Dear Colleagues,

This Special Issue encompasses studies of the human gut microbiota and its impact on children's health and disease. Studies on the development of non-communicable diseases, central obesity/obesity, neurodevelopment, and gastrointestinal, immunological, inflammatory, and metabolic disorders; on the interaction of diet and the environment; novel studies using applied technologies; and on the biological-causal mechanism of the effect of the intestinal microbiota on health and disease in children will be considered for publication.

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
