Message from the Guest Editors

Dear Colleagues,

The Special Issue entitled “Radiologic Diagnosis of Urinary Tract and Kidney in Children” aims to contain valuable articles regarding the use of ultrasound, a non-invasive, non-irradiant method in diagnosis pediatric diseases. The focus is on urinary tract malformations in children from the neonatal to adult period using contrast agents such as Sonovue in detecting vesico-urinary reflux. In addition, rare pediatric cases will be discussed in this Special Issue from the clinicians’ point of view to the radiologists’ point of view. The content should convince both clinicians and radiologists to establish protocols for the follow-up of patients with urinary tract malformations.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
